SUMMARY

I am a motivated Software Engineer with over a year of practical experience in developing web applications using technologies such as React, Python, Django REST APIs, JavaScript, and SQL. I have a strong passion for delivering effective solutions and contributing to innovative full-stack development projects

WORK EXPERIENCE

Software Engineer

Oct '25 — Present

Sanpurnam Infotech Pvt. Ltd

Pune

- Developed full-stack applications using React.js, Django, Django REST Framework, and MySQL.
- Implemented REST APIs, JWT authentication, CRUD operations, and responsive UI.
- Worked on HRMS and Hospital Management System modules and business workflows.
- Deployed and maintained applications on Linux production servers.

PROJECTS

HRMS(Human Resource Management System) [Link](#)

- Developed and maintained HRMS modules using Django REST Framework, React, and MySQL with RESTful APIs.
- Built core HR features including Recruitment, Employee Onboarding, Exit Management, Asset Management, and Expense Management.
- Designed configurable Multi-Level Approval workflows, Reporting Manager hierarchy, email notifications, dashboards, and optimized database performance.

HMS(Hospital Management System) [Link](#)

- Developed Hospital Management System (HMS) modules using Django REST Framework, React, and MySQL, implementing the complete IPD patient lifecycle from admission to discharge.
- Built Floor, Ward, Room, and Bed Management modules with patient admission, bed allocation, transfers, discharge processing, and real-time bed availability tracking.
- Developed RESTful APIs, optimized database performance, and automated hospital workflows to improve operational efficiency.

Wheels Auctions — Vehicle Auction Management Platform [Link](#)

- Developed a full-stack vehicle auction platform with vehicle, vendor, auction, bidding, and master-data management.
- Implemented JWT-based authentication and secure REST APIs with React.js integration.
- Designed MySQL database, implemented CRUD operations, and deployed the application to production.

Ghar Story – Real Estate Website [Link](#)

- Developed a responsive real estate website with property listings, search/filtering, favourites, testimonials, and client stories.
- Built reusable React components with interactive WhatsApp and phone contact features.
- Deployed the production website on Vercel with a custom domain and managed source code using Git/GitHub.

SKILLS

Programming Languages : Python, JavaScript, C, HTML, CSS

Frontend Technologies : React.js, HTML5, CSS, JavaScript

Backend Technologies & Frameworks : Django, Django REST Framework

Web Technologies & Architecture : RESTful APIs, MVT (Django), JWT Auth

Databases : MySQL, SQL Server, PostgreSQL

Development Tools : VS Code, Git, GitHub

Languages English Proficient, Hindi Proficient, Marathi Advanced

EDUCATION

SSC, Maharashtra State Board Of Secondary and Higher Secondary School	Jun '10 — Jun '11 Mhaisal
Completed Secondary School Certificate (SSC).	
Diploma In Engineering, Maharashtra State Board of Technical Education, Mumbai	Jun '11 — Jun '14 Sangli
Relevant Coursework: C Programming, C++, Data Structures, Database Fundamentals, Web Technologies.	
Bachelor Of Engineering , Savitribai Phule Pune University	Jun '14 — Jun '17 Lonavala
Relevant Coursework: C, Python, Data Structures, Database Management, Web Development, Software Engineering.	

STRENGTHS

- Problem Solving Team Leadership
- Resolved complex technical bugs and Directed and work with developers to meet bottlenecks project milestones
